The CDN Quarterly Sequence

The CDN Quarterly is part of the total CDN subscription package. One section of the Quarterly is sent every month to our CDN subscribers (along with their CDN Monthly Supplement), and the contents of the Quarterly rotate every three months. The following outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the Quarterly regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly issues included in your subscription, subscribers to the CDN now receive **current** pricing information on every regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

Using the CDN Quarterly

CDN publications report prices based on national dealer-to-dealer buying and selling information. These **wholesale** prices result from our monitoring all possible **sight-seen** transactions and offers to buy or sell. The coins may be certified or "raw", but the grading **must adhere** to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). CDN Quarterly prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise CDN Quarterly prices, and a lower Sell will normally lower them.

The CDN Quarterly reports the **highest wholesale** prices seen nationally, which assume a **willing and knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

attractive, museum-quality
encasements (slab) that
is ultrasonically sealed.

RED LABEL FOR "PROBLEM" COINS

PROBLEM COIN CERTIFIED CAPSULE

DATELINE: 1993 CHATTANOOGA, TN

Effective immediately: When you submit U.S. coins... every one of them will be graded and encapsulated. Never before has any grading service offered such extensive attention to your coins. **Coins without any problems** will continue to be graded and holdered with the premium "old-familiar" GREEN INSERT LABEL. **Coins with problems** will now be graded and holdered with the new certified RED INSERT LABEL. These will be graded with the problem described and printed below the grade. Collectors and dealers can now get their coins graded, certified and slabbed even if the coin has a problem.

You make the choice between other grading services and PCI. And when you do please consider the following reasons that make the difference:

(1). PCI only charges \$7.50 per coin (plus postage, etc.) to grade, authenticate, en-

capsulate and to process your order regardless of its value. Compare this to \$50 or \$23 or even \$12!

- (2). More collectors, dealers, individuals and banks (over 5,000 total) have submitted coins to PCI than any other grading service. We challenge any grading service to match our record beginning the day we opened on June 1, 1989 until now!
- (3). Our standard express "turn-around" time from the day we receive your coins to the day we ship them out is 6 working days. At all of the other services this will cost you a minimum of \$23! Our price is \$7.50.
- (4). Anyone may submit coins to PCI at the same low rates. The 2 other major grading services have formed exclusive dealer networks... thereby restricting who may get coins graded. Why do you think they charge so much? It's obviously money in the dealers pocket not yours! No longer do

you have to go through an "in-crowd" to get consistently graded coins. It's your private business!

- (5). Every genuine dated coin you now submit (except plugged, holed, altered or undistinguishable) will be encapsulated in either the GREEN LABEL or RED LABEL slab. Collectors know that coins in slabs are generally worth more and now you can get in on the profits. PCI does reserve the right to refuse to encapsulate any coin for any reason it feels would be detrimental to the numismatic industry.
- (6). Any purchaser or submitter of a PCI coin who believes their coin(s) is misgraded, improperly attributed, or has questionable authenticity may resubmit the slab for a re-evaluation and/or reslabbing. The resubmitted process of evaluation and/or reselling will be paid for by PCI (excluding return postage and insurance which you pay).

6 DAY EXPRESS SERVICE SLAB SUBMITTAL FORM

Coins will be shipped on or before the 6th working day after we receive them and will be sent U.S. Registered Mail.

A Safe Harbor For Your Coins.

Treacherous waters.

Can you remember when everyone had a different opinion about whether a coin was an MS64 or an MS65? Or when prices on coins varied wildly even though the coins looked the same to you? And what about when the MS65 you bought became an MS64 when you went to sell it?

If you've been in love with numismatics for even slightly more than eight years, then you probably recall the days before the Rare Coin Revolution.

It was a time when successfully participating in the coin market was often a matter of pure luck -- tantamount to navigating through stormy seas without the benefit of sails or rudder -- and placing hope against hope that you'd be able to steer clear of the rocks ahead.

A safe harbor for your coins.

That was the rare coin industry before an accepted industry standard and objective grading practices became available to consumers.

The startling need for consumer protection was responsible for turning the tide in the rare coin marketplace with a concept called Professional Coin Grading Service.

Soon PCGS introduced standardized, third-party grading -- and encapsulation to guarantee a coin's grade. The Rare Coin Revolution had begun.

PCGS received widespread acceptance among coin dealers and collectors by creating a new level of consumer confidence not before known to the hobby.

Now it's been almost a decade since the beginning of the Rare Coin Revolution. Certified coins rule in coin shops and on bourse floors. And the overwhelming acceptance of PCGS is a powerful testament to all of the advantages of third-party grading.

Buying a PCGS-graded coin is like having the expertise and experience of three professional numismatic consultants with you every time you buy a coin. What's more, it's like keeping all three on your personal payroll long after the transaction's complete, because each coin graded by PCGS is covered by our cash-back Guarantee of Grade and Authenticity

as long as it remains in its tamper-evident, protective NumisCap™ holder.

These are the primary reasons why the vast majority of today's collectors would rather give up the ship than voyage into the rare coin market without the safe harbor offered by PCGS.

Stay the course.

Today's rare coin market makes it essential to have your coins graded by PCGS. Current market conditions have sent consumer confidence in the PCGS product sailing to an all-time high. Coins certified by PCGS are easier to sell than ever before.

But what about uncertified coins? The fact of the matter is that uncertified coins are harder to sell than ever before. Ask just about anyone in the industry if they're worth the risk.

So if you're interested in adding to your portfolio, now is an excellent time to speak to any one of our 701 PCGS authorized dealers in the U.S. or overseas.

There's never been a better time to have your coins graded by PCGS.

PCGS has a service for any coin in your collection. At \$25 per coin for our basic 15-Day service, PCGS is common sense insurance for your coins. Our \$15 Economy service is an excellent option designed especially for all non-gold coins valued at \$300 or less. PCGS also offers many other services for cost-conscious collectors.

And while our prices are better than ever, best of all, so are our guaranteed turn-around times!

But regardless of the PCGS service you choose, each coin is graded with the same professionalism and care you are accustomed to from Professional Coin Grading Service.

For a complete list of services and the PCGS authorized submission centers nearest you, please contact the PCGS customer service department at 1-800-447-8848.

There's never been a better time to have your coins graded by PCGS!

Certification by PCGS does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for PCGS certified coins will vary according to general market conditions and the particular coin involved. For some coins there may be no active market at all at certain points in time.

The CDN Quarterly Sequence

The **CDN Quarterly** is part of the total CDN subscription package. One section of the **Quarterly** is sent every month to our CDN subscribers (along with their **CDN Monthly Supplement**), and the contents of the **Quarterly** rotate every three months. The following outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the **Quarterly** regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly issues included in your subscription, subscribers to the **CDN** now receive **current** pricing information on **every** regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

SPOT PRICES AT QUARTERLY PRESS TIME:

Using the CDN Quarterly

CDN publications report prices based on national dealer-to-dealer buying and selling information. These **wholesale** prices result from our monitoring **all** possible **sight-seen** transactions and offers to buy or sell. The coins may be certified or "raw", but the grading **must adhere** to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). **CDN Quarterly** prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise **CDN Quarterly** prices, and a lower Sell will normally lower them.

The **CDN Quarterly** reports the **highest wholesale** prices seen nationally, which assume a **willing and knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

the COIN DEALER QUARTERLY II newsletter

Vol. III No. 8

August 12, 1994

Single copy price \$5.00

The CDN Quarterly Sequence

The CDN Quarterly is part of the total CDN subscription package. One section of the Quarterly is sent every month to our CDN subscribers (along with their CDN Monthly Supplement), and the contents of the Quarterly rotate every three months. The following outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the Quarterly regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly issues included in your subscription, subscribers to the CDN now receive **current** pricing information on **every** regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

Using the CDN Quarterly

CDN publications report prices based on national **dealer-to-dealer** buying and selling information. These **wholesale** prices result from our monitoring **all** possible **sight-seen** transactions and offers to buy or sell. The coins may be certified or "raw", but the grading **must adhere** to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). CDN Quarterly prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise CDN Quarterly prices, and a lower Sell will normally lower them.

The CDN Quarterly reports the **highest wholesale** prices seen nationally, which assume a **willing and knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

QUARTERLY II

newsletter

Vol. III No. 11

November 11, 1994

Single copy price \$5.00

The CDN Quarterly Sequence

The CDN Quarterly is part of the total CDN subscription package. One section of the Quarterly is sent every month to our CDN subscribers (along with their CDN Monthly Supplement), and the contents of the Quarterly rotate every three months. The following outlines the publishing schedule:

Quarterly 1: published Jan.; Apr.; July; Oct.; contains Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

Quarterly 2: published Feb.; May; Aug.; Nov.; contains Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

Quarterly 3: published Mar.; June; Sept.; Dec.; contains Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the Quarterly regularly contains 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly issues included in your subscription, subscribers to the CDN now receive current pricing information on every regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices are up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

SPOT PRICES AT QUARTERLY PRESS TIME:

Using the CDN Quarterly

CDN publications report prices based on national dealer-to-dealer buying and selling information. These wholesale prices result from our monitoring all possible sight-seen transactions and offers to buy or sell. The coins may be certified or "raw", but the grading must adhere to the current leading standard. Prices also consider activity in the certified sight-unseen market (PCGS & NGC). CDN Quarterly prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally raise CDN Quarterly prices, and a lower Sell will normally lower them.

The CDN Quarterly reports the highest wholesale prices seen nationally, which assume a willing and knowledgeable buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These wholesale prices should not be misinterpreted by retail clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of sight-seen trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

There's only one...

There's only one Steve...

There's only one Steve Ivy, and as one of America's most respected numismatists, he is easy to find - on the bourse or at Heritage. But when you need to mail to him as well as the more than 5,000 other numismatists in America, you will quickly discover that

There's only one source...

There's only one source for the most complete, most accurate, and most up-to-date listing of dealers in America, and that's the **1994 Numismatic Dealer Directory**. Our current NDD list is available for rental, and at only \$325, is well below the price normally charged for specialized lists. When you want to mail to every dealer in the NDD (or just the dealers in California, or the Mid-Atlantic states), you will soon discover that

There's only one practical way to mail...

There's only one practical way to mail to every dealer in the NDD, and that's to buy labels from the source. Why? We know how long it takes to type 5,000+ labels, but even more important, our labels will be up-to-date. We know how many changes occur *after* the NDD is printed, because we update our database every day! You want your mailing to be delivered, because returned mail generates no profits. And you can choose between First-Class and Third-Class mailing rates. Contact us for details.
